Adjustable Legs

### **Durable Construction**

The CE62BESC is built with *prime 20-gauge cold-rolled* top and sides with a 14-gauge base. The interior is made of Armco Type 1, 20-gauge aluminized steel. The CE62BESC comes standard with stainless steel front, or optional all stainless steel finish. The stainless steel is made of high quality, 18-gauge 430 stainless; the door interior is 18 gauge stainless.

### **Energy Efficiency**

The CE62BESC is powered by six (6) 2,000w elements (each) which *increases its efficiency and recovery rate*.

### **Capacity**

The CE62BESC deck size measures 42"x32"x7" (2). The CE62BSC will hold eight (8) 18"x26" bun trays. Cook time will vary according to product.

### **Space Saver**

The CE62BESC requires *less installation space* than our competition. This enables you to free up valuable kitchen and/ or hood space. The actual width needed is mere 56" for four *42"x32" decks*, almost a foot less than the competition.

### **Design Plus**

The CE62BESC has the *controls on the side for ease of operation and space savings*. This also places the controls in their own *air-conditioned area* so they are not affected by outside influences.
